

TMC Monthly Operational Summary

Bureau of Transportation Systems Management & Operations (TSMO)

NH Department of Transportation's Mission

Transportation excellence enhancing the quality of life in New Hampshire.

Transportation Management Center's Mission

The Transportation Management Center's mission is to detect, verify, and respond to incidents that affect the state transportation network. It serves to improve traffic operations, provide the public with current, accurate and useful travel and commuter information that promotes safe and efficient travel, as well as facilitates the maintenance of New Hampshire's transportation system.

New Hampshire Transportation Management Center Coverage Areas by District

The State of New Hampshire is divided into six Districts and the New Hampshire Turnpike System comprising of approximately 9,266 lane miles.

Permanent ITS Equipment List

Closed-Circuit Television (CCTV) Cameras

	2017 Total	2018 Total
--	------------	------------

CCTV cameras are used to pinpoint and monitor traffic events so that information can be disseminated quickly and accurately.

91	97
----	----

Dynamic Message Signs (DMS)

DMS aid in sending messages to motorists to inform them of traffic events that may be impacting their route ahead.

52	56
16 ¹	16 ¹
20 ²	20 ²

¹ Additional DMS that TSMO uses during the winter season.

² TSMO is responsible for an additional ~20 DMS for the department.

Road Weather Information System (RWIS)

A RWIS collects and displays data from a network of pavement and atmospheric sensors to provide site-specific weather and pavement surface condition information.

24	24
----	----

Variable Speed Limit Sign (VSL)

VSL are speed limits that change based on road, traffic, and weather conditions.

19	20
----	----

Motor Vehicle Detector Sensors (MVDS)

MVDS are sensors that collect speed and volume data.

Summary

	Current Month	2018 Total
Unplanned Incidents	Total Incidents	
Operators log information about each unplanned incident including date/time, location, traffic impact, and duration.	194	1,151
Planned Incidents	Total Planned Incidents	
Operators log information about each planned incident including date/time, location, traffic impact, and duration.	510	1,900
Communication	Total Calls	
Operators log all incoming and outgoing control room communications, engaging various incident responders and stakeholders.	2,917	15,535
Work Zones Communication	Total Construction Calls	
Construction related activities or communication that's outside of planned incidents.	572	1,962
DMS Messages	Total Messages	
All changes to DMS are logged and reviewed.	12,094	60,534
Public Outreach	Total NHTMC.com Webpage Users	
Operators use Twitter and nhtmc.com to inform motorists about traffic events and other road related information.	1,083	12,192
Storm Desk Activations	Total Storm Desk Activations	
The TSMO Storm Desk is activated during storm events. The Storm Desk is utilized as a single point of contact to stakeholders.	0	4

Unplanned Incidents

Increased staffing within the TMC is necessary during normal business hours to better facilitate daily operations while also managing unplanned incidents. Incidents are tracked by the time at which the operators are notified of the start of the event.

Current Month - Incidents by Type

This graph shows the type of incident totals for the month.

Types of Incidents:

No Closure: No lane closures occurred during the incident.

Partial Closure: Only a part of the roadway was closed.

Full Closure: All lanes were closed during the incident.

■ No Closure ■ Partial Closure ■ Full Closure

Current Month - Incident Duration

This graph shows the duration history of incidents.

Current Month - Incident by Road

This graph shows which type of roadway the incidents occurred on.

Planned Events

Additional staffing within the TMC is necessary during peak hours to meet the demands of daily planned operations. Planned Events are tracked by the time at which the operators are notified of the start of the event.

Current Month - Incidents by Type

This graph shows the type of incident totals for the month.

Planned Events that impact the roadway, shoulder, or a ramp include events such as construction, bridge maintenance, or road maintenance. Each type could result in a partial closure or full closure.

Current Month - Incident Duration

This graph shows the duration history of incidents.

Current Month - Incident by Road

This graph shows which type of roadway the incidents occurred on.

Current Month - Calls by Type

Dispatchers receive different types of calls throughout the day. They log the type of call and review this information monthly.

Log Entries by Type

This graph shows the amount of log entries by type that TMC Operators have entered into the Compass ATMS for the current month.

Work Zone Communication

Current Month – Construction Calls

This graph shows the different types of construction related calls that dispatchers received.

Incidents Occurring in Work Zones

This graph shows the total number of incidents reported on Work Zone Crash Reports from the Bureau of Construction.

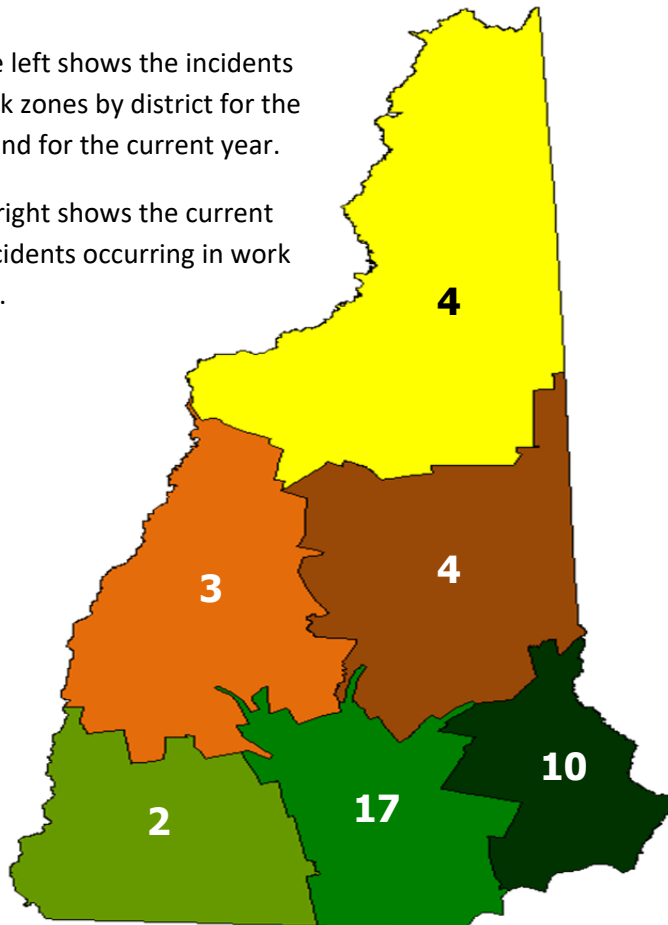

Incidents Occurring in Work Zones by Location

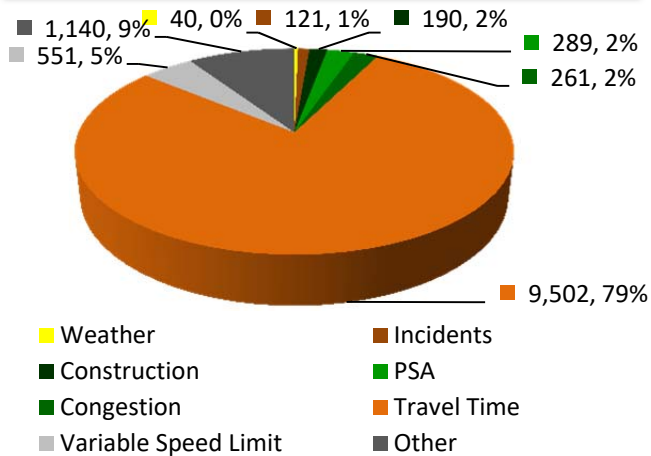

The graph to the left shows the incidents occurring in work zones by district for the current month and for the current year.

The map to the right shows the current year total for incidents occurring in work zones by district.

DMS Messages

Current Month - Messages by Type

This graph shows the type of message that were relayed to the public by being displayed on the DMS.

Total Messages - 2017

This graph shows the total messages that were posted to DMS for the year so far.
