Unplanned Incidents

Increased staffing within the TMC is necessary during normal business hours to better facilitate daily operations while also managing unplanned incidents. Incidents are tracked by the time at which the operators are notified of the start of the event.

Current Month - Incidents by Type

This graph shows the type of incident totals for the month.

Types of Incidents:

No Closure: No lane closures occurred during the incident.

Partial Closure: Only a part of the roadway was closed.

Full Closure: All lanes were closed during the incident.

Current Month - Incident Duration

This graph shows the duration history of incidents.

Current Month - Incident by Road

This graph shows which type of roadway the incidents occurred on.

Planned Events

Additional staffing within the TMC is necessary during peak hours to meet the demands of daily planned operations. Planned Events are tracked by the time at which the operators are notified of the start of the event.

Current Month - Incidents by Type

This graph shows the type of incident totals for the month.

Planned Events that impact the roadway, shoulder, or a ramp include events such as construction, bridge maintenance, or road maintenance. Each type could result in a partial closure or full closure.

Current Month - Incident Duration

This graph shows the duration history of incidents.

Current Month - Incident by Road

This graph shows which type of roadway the incidents occurred on.

Current Month - Calls by Type

Dispatchers receive different types of calls throughout the day. They log the type of call and review this information monthly.

Log Entries by Type

This graph shows the amount of log entries by type that TMC Operators have entered into the Compass ATMS for the current month.

Work Zone Communication

Current Month – Construction Calls

This graph shows the different types of construction related calls that dispatchers received.

Incidents Occurring in Work Zones

This graph shows the total number of incidents reported on Work Zone Crash Reports from the Bureau of Construction.

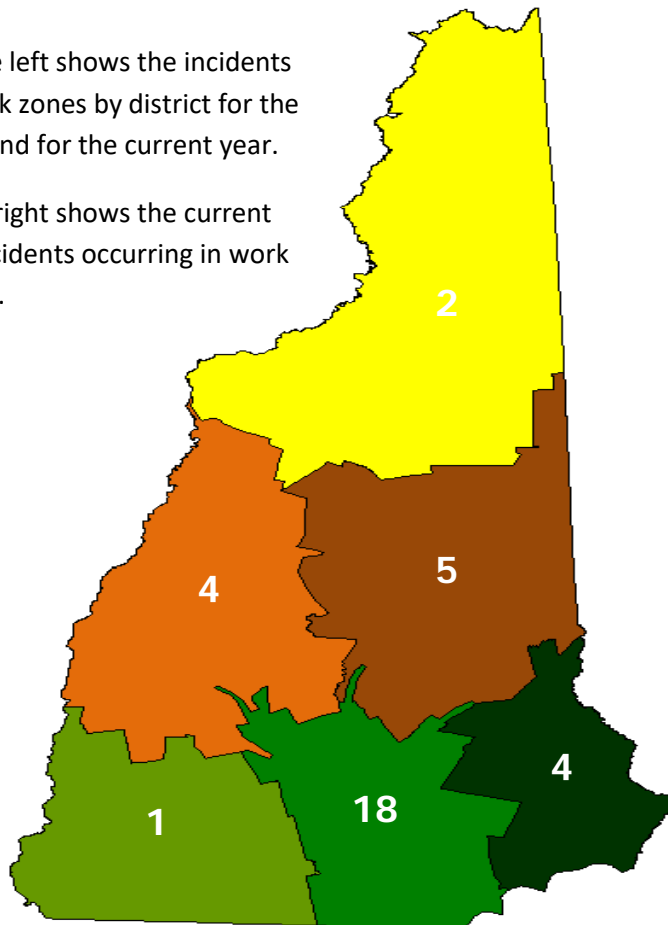

Incidents Occurring in Work Zones by Location

The graph to the left shows the incidents occurring in work zones by district for the current month and for the current year.

The map to the right shows the current year total for incidents occurring in work zones by district.

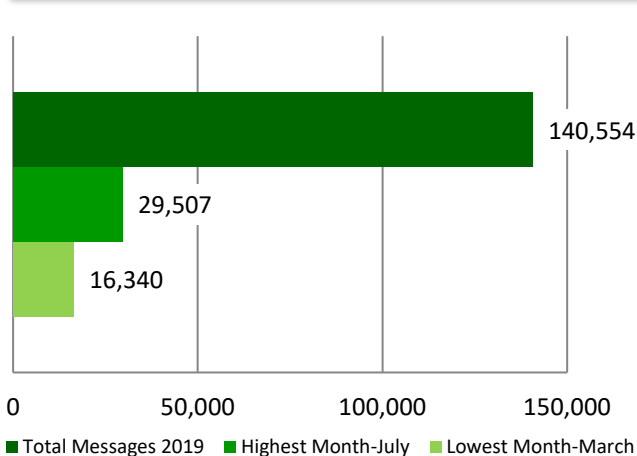

DMS Messages

Current Month - Messages by Type

Total Messages - 2019

This graph shows the type of message that were relayed to the public by being displayed on the DMS.

This graph shows the total messages that were posted to DMS for the year so far.
